Digital Colour Multifunction Device
A new way to work effectively

ApeosPort-IV C5575 Series Multifunction Devices

We all want to help protect the environment. It makes sense to do everything we can to minimise our carbon footprint and reduce the waste we create while we work.

It makes good business sense too. By cutting out waste and using less energy we can also improve the performance – and profits – of our business. It pays to work smarter and cleaner, yet more efficiently than ever before.

The ApeosPort-IV C5575/C4475/C3375/C3373/C2275 series features an open architecture technology that enables personalised and customised document management solutions you can access right from the device's touch screen. These applications can leverage your existing infrastructure and databases, and meet your specific business challenges.

Environmental performance combined with stunning print performance

Fuji Xerox has combined improved print performance with environmental protection by developing groundbreaking new technologies to further improve the environmental performance of its new multifunction devices. At the same time we've made sure that users can continue to enjoy effortless operations. These developments bring together new technology and services for superior environmental performance alongside user friendliness and ultimate productivity.
The multifunction device automatically detects the user. Fuji Xerox has introduced its revolutionary "Smart WelcomEyes" technology* to the ApeosPort-IV C5575 series multifunction devices. The device is able to detect when an operator is approaching and automatically recovers from sleep mode, as if to welcome them. This clever technology eliminates unnecessary operational steps and the operator can use the device immediately. It also saves energy while the operator achieves new productivity levels, without even noticing.

* Fuji Xerox is applying for a trademark registration of Smart WelcomEyes.

Smart Energy Management Technology. Our innovative Smart Energy Management Technology better manages energy usage by only using what is necessary, when it's necessary. This enables the device to activate only the modules required by the user, saving energy and reducing CO_2 emissions. What's more, offices will enjoy a much quieter environment.

From sleep mode to full operation in 2 seconds – no need to wait! When the ApeosPort-IV C5575/C4475/C3375/C3373/C2275 multifunction device recovers from sleep mode, it takes only 2 seconds to wake up and start working. Due to Smart Energy Saving they experience no real waiting time. Even if the device is always set to sleep mode for low power consumption, users don't experience any delays in set-up and operation.

Induction Heating Fusing Technology incorporates a thin, non-magnetic metal as the heating layer inside the fuser belt which enables greater energy efficiency. With this technology, the fusing unit does not require pre-heating and doesn't consume power when the machine is in standby mode. As a result, a fusing unit with the quickest start-up time of only 3 seconds providing Fuji Xerox with a tremendous competitive edge.

Pressure roller
Fuser belt
Pressure pad

Promoting the adoption of biomass plastic. Fuji Xerox is proud to promote the use of biomass plastics, comprising more than 50 % of plant-derived constituent (corn), used in specific device parts. This helps to reduce the levels of CO_2 emissions.
Fuji Xerox is the first in the industry to develop inedible, woody biomass plastic material and components in our devices.

LED Scanner. The LED technology used as the light source for image scanning consumes less energy and gives you ultra-quiet operation.

Fuji Xerox has developed a high-precision, LED print head technology "DELCIS" (Digitally Enhanced Lighting Control Imaging System) that achieves an output resolution of 1,200 x 2,400 dpi that is equivalent or even superior to that produced by a conventional laser raster output scanner (ROS) system. LED print head technology makes it possible to build even smaller devices and reduces power consumption.

Photoconductive drum

LED element

EA-Eco Toner. This Emulsion Aggregation (EA) Ultra Low-Melt toner achieves a fusing temperature more than 20°C lower than conventional EA toner, reducing power consumption during fusion, as well as achieving a brilliant glossy output even on ordinary paper.

Various functional fine partides (charging, heat resistance & cleaning)

Newly developed sharp-melting polyester

Colorant

Wax

Advanced functions, yet even easier to use

The ApeosPort-IV C5575/C4475/C3375/C3373/C2275 is the perfect device to be used as the "nerve centre" of your business. It works effortlessly as the central device in an office to provide stable, trouble-free productivity and excellent image quality for every business requirement.

Dramatically increase your workflow efficiency. Cutting edge scanning functionality opens the door to better ways of getting work done. Scan to Email quickly distributes documents to multiple email addresses. Store files on the device, or in a personal directory. You can also scan documents to network folders, FTP sites and fax servers right from the device.

Scan to Folder feature allows you to scan to a folder on the printer's hard drive to reprint on demand or retrieve via a web browser. Documents stored on the hard drive are displayed as thumbnails and up-close previews on the device touchscreen.

Easy archiving, organising and searching. With scan to searchable PDF*, you can create a fully text-searchable file and integrate it into your workflow process in one easy step.

Significantly smaller scan files. The latest scan-export compression technologies reduce traffic on the network and accelerate document delivery.

Introduce new workflows or automate repetitive processes within the office environment by automatically routing documents to predefined locations at the touch of a button.

Document Conversion to Word/Excel® formats for easy editing. The ApeosPort-IV C5575 series multifunction devices can detect text, tables and pictures in scanned images and convert them into Microsoft Word and Excel documents so you can edit them easily*. Paper documents and original data that have been lost can be regained and easily used, saving time and hassle for users by eliminating rekeying chores.

* The optional Advanced Scan Kit is required.

1 Optional Wing Table

2 Four 500-sheet paper trays adjustable up to A3

3 Optional integrated stapler finisher

4 Choose basic features like staple and hole punch (optional), or advanced capabilities to produce saddle-stitched booklets (unfolded)

High-speed scanning delivers maximum productivity.
The ApeosPort-IV C5575/C4475/C3375/C2275 multifunction devices are capable of scanning both sides of a document in a single pass, at a maximum rate of 140 images per minute for both colour and black-and-white documents. The lightweight duplex automatic document feeder can also hold a maximum of 130 sheets.

* Applicable only with the Duplex Automatic Document Feeder B1-PC

Low colour documents can be compressed as small as monochrome documents. Documents with a relatively small amount of colour, such as documents with corrections, stamps and markings in red can be compressed by using the high compression function when scanning.

Walk-up simplicity. Print from and scan to any USB memory device for faster document delivery when you're not at your computer.

5

2,030-sheet A4 High Capacity Feeder (optional) can increase total capacity to 5,120 sheets

6

High Capacity Tandem Tray holds up to 3,000 sheets

7

This high performance finisher features automatic stapling, hole-punching, folding and booklet making.

High resolution output – a genuine 2,400 dpi. The ApeosPort-IV C5575/C4475/C3375/C3373/C2275 can produce high resolution output of 2,400 dpi. Users can tailor the final output settings of their documents by selecting "standard", "photo", "presentation", "design", "CAD" or "POP" to suit the image type they require, as well as setting the colour balance or choosing an ICC profile.

Users can analyse the environmental impact of their print operations by checking the ecological rating display on the document monitor*. This function displays up to five leaves to indicate how environmentally friendly the print settings are.

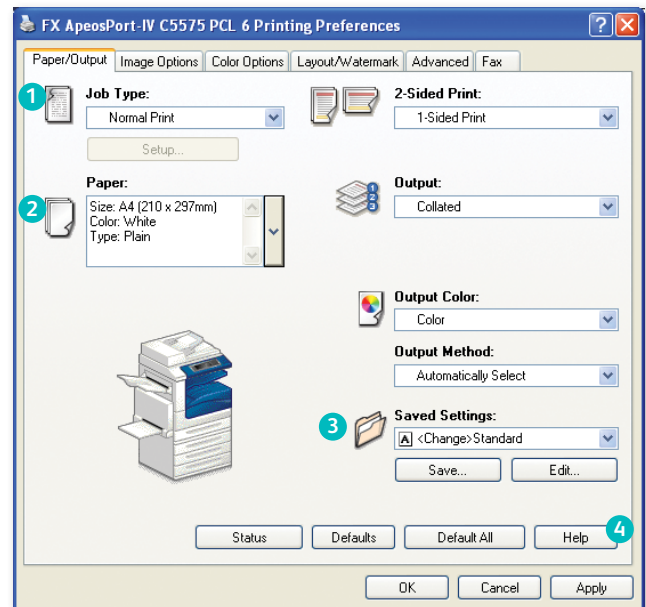

* The document monitor is software that is installed on the computer. It can be downloaded from the Fuji Xerox website.

To speed up copying and faxing an express (simple) copy and fax feature is available that displays only the basic settings. This is provided in addition to the normal features.

A truly universal print driver. Xerox Global Print Driver® lets IT administrators install, upgrade and manage Fuji Xerox and non-Fuji Xerox devices from a single driver. It provides a consistent, easy-to-use interface for end-users, reducing the number of support calls, and simplifying print services management.

Customise your print driver settings for economy and efficiency. For example, set two-sided printing or choose N-up for printing multiple pages on a single sheet as your default.

WHQL certified PCL and PostScript print drivers provide a consistent, easy-to-use interface for end-users that can greatly simplify your printing operations.

1 Drop down menu for secure print, fax, save to mailbox and more

2 Paper selection summary window

3 Favourite print settings

4 Help function for feature descriptions and driver assistance

Save time by storing the settings of frequently printed documents as favourites in your print driver. Settings include paper sizes, covers, duplexing, finishing and more.

Forwarding received fax documents. When faxes are received they can be stored in the device folders, and any required documents can be printed after checking thumbnail previews. This cuts waste and reduces paper use. Documents received in a folder can also be forwarded by fax, printed, and sent via e-mail, FTP, or SMB.

Faxes can be sent directly from PCs. This reduces the volume of paper required in an office and eliminates the need for unnecessarily printing faxes.

Eliminating spam faxes. If you do not want to receive faxes from specific or unlisted numbers they can be rejected. This handy function lets you eliminate indiscriminate direct mailing and wasteful printing of unwanted faxes.

IP Fax or FoIP offers a more cost efficient way of doing business. Faxes are sent and received through an IP-based network such as the internet. Faxes can be routed directly to an email account to conserve energy and paper.

Reporting and management tools

CentreWare™ Internet Services software makes it easy for administrators to configure the device, upload address books, monitor usage and consumables remotely and establish auditing capabilities.

Manage colour printing to minimise costs. Control costs by nominating when colour can be used, and by whom. This ensures that colour is available to those individuals who truly leverage its power, such as sales teams and the marketing department.

Driverless printing for remote users with CentreWare Internet Services web utility. Any connected computer can immediately output PDF, TIFF, JPEG and Docuworks files from any network computer, without using a print driver at all.

Device Configuration Tool allows for simplified device configuration and administration, and lets you easily clone configurations to other similar devices on the network.

Security at every level

Secure print helps prevent unauthorised viewers from seeing documents by holding jobs in the print queue until the user is authenticated.

Image overwrite security feature clears or "overwrites" all traces of any document image data remaining on the hard drive after a print, copy, scan or fax job (when enabled).

Hard disk encryption helps ensure that unauthorised users can't access stored documents.

IPv6 support includes full enablement of the new IPSec standard.

Internal security provides an additional measure of security, providing IP filtering, domain filtering and port blocking.

Device authentication restricts access to copy, print, scan and fax features by validating user names and passwords before use. Audit Log capabilities let you know who sent what, and when.

Embedded authentication enhances security and increases convenience. The ApeosPort-IV C5575/C4475/C3375/C3373/C2275 includes an authentication function so that unauthorised users are restricted from using the device. Each user's history can be collected from the job history record. By adding an embedded card reader* to the device, users can employ swipe card authentication for extra security. Use of the device can be restricted to specified users and linked with specific functions to enhance security and improve convenience for authorised users.

*An external or internal type IC Card Reader is available.

Extending your capabilities with Apeos Solutions

The transfer of knowledge, data and communication of information is critical to the efficiency and productivity of business today. The office employee also demands true 'ease of use' to ensure this knowledge is distributed efficiently and securely within the business.

Apeos iiX (Apeos Integration based on XML and SOAP) is the platform delivering integrated office solutions and provides additional capability to enhance your Enterprise productivity, security, streamline processes and reduce costs. Capabilities include: Cost Recovery, Secure Device Authentication via Card ID, Document Security Solutions and much more.

Leveraging Fuji Xerox consultancy expertise for greater ROI. To maximise your ApeosPort investment, leverage on Fuji Xerox's comprehensive consultancy expertise to customise the web services available through the Web Browser on your ApeosPort.

Depending on the complexity of your environment and business needs, the Fuji Xerox Business Alliance and Consulting Services (BACS) group provides document consulting, system design, development and project management services to assist you with your integration or customisation requirements. Our customisation team can re-design your ApeosPort's web browser to display the same "look-and-feel" as your business application. Enjoy true customisation with the flexibility to add company logo, change colours and integrate unique workflows.

Effectively manage printing costs in your office. By seamlessly integrating with Fuji Xerox multifunction devices (MFD's), **ApeosWare Management Suite** allows you to track, analyse and allocate costs of printouts sent to a networked printer, copier or MFD.
The **Print On Demand** with Secure Document release increases mobility and productivity by allowing your staff to output documents at any networked printer within your office. It enables a secure access by entering a user ID or swiping a card before getting their documents. This means that users can avoid being on guard while waiting for their printouts - letting them make better use of their billable time.

An extensive reporting capability enables traceability of costs within workgroups. It also provides information on which devices are heavily used and breaks down often so you can make informed decisions on deploying your office equipment.

Document security is priority. Fuji Xerox introduces a solution that empowers you with top security for all your electronic and paper documents. The new ApeosWare Image Log Service Document Security Solution lets you monitor and track any document once it is copied, printed, faxed or scanned.

All documents that are copied, printed, faxed or scanned, are automatically saved as images by ApeosPort. Next, these captured images are seamlessly transferred to a core server with "OCR" technology, and are indexed and stored according to their job information. Should a leak occur, you can trace and locate the disclosed documents as well as the source of the leak including who, where, when, which and how, by performing keywords or content searches of the stored images on the core server. Investigative work that was once tedious and time-consuming now becomes swift and effortless!

Specifications of ApeosPort-Ⅳ C5575 / C4475 / C3375 / C3373 / C2275 Series

Fax Function (Optional)

Send Document Size	**Max:** A3, 11 x 17", Long document (Max. 600 mm)
Recording Paper Size	**Max:** A3, 11 x 17", **Min:** A5
Transmission Time	2 seconds and more but fewer than 3 seconds
Transmission Mode	ITU-T G3
Scanning Resolution	**Standard:** 8 x 3.85 lines/mm, 200 x 100 dpi
	Fine: 8 x 7.7 lines/mm, 200 x 200 dpi
	Super Fine (400 dpi): 400 x 400 dpi
	Super Fine (600 dpi): 600 x 600 dpi
Coding Method	MH, MR, MMR, JBIG
Transmission Speed	G3: 33.6 / 31.2 / 28.8 / 26.4 / 24.0 / 21.6 / 19.2 / 16.8 / 14.4 / 12.0 / 9.6 / 7.2 / 4.8 / 2.4 kbps
Applicable Lines	Telephone Subscriber Line PBX, PSTN, Max. 3 ports

Direct Fax Function (Optional)

Document Size	A3, B4, A4
Scanning Resolution	Same as the fax function
Transmission Speed	Same as the fax function
Applicable Lines	Same as the Fax Function
Operating System[1]	Windows® 2000, Windows® XP, Windows Server® 2003, Windows Vista®, Windows Server® 2008, Windows® 7, Windows® XP Proffesional×64, Windows Server® 2003×64, Windows Vista® ×64, Windows Server® 2008×64, Windows Server® 2008 R2, Windows® 7 x64, Mac OS X 10.5/10.6 /10.7

[1] Please refer to the Fuji Xerox website for the latest information of the compliant OS.

Internet Fax Function (Optional)

Document Size	A3, B4, A4
Scanning Resolution	Same as the fax function
Output Format	**Format:** TIFF-FX, **Compression Method:** MH, MMR, JBIG
Profile	TIFF-S, TIFF-F, TIFF-J
Protocol	**Outgoing Mail Server:** SMTP, **Incominging Mail Server:** SMTP, POP3
Connectivity	**Standard:** Ethernet 100BASE-TX/10BASE-T
	Optional: Ethernet 1000BASE-T

IP Fax (SIP) Function (Optional)

Document Size	Same as the fax function
Scanning Resolution	Same as the fax function
Protocol	SIP, JT-T.38
Coding Method	Same as the fax function
Connectivity	**Standard:** Ethernet 100BASE-TX/10BASE-T
	Optional: Ethernet 1000BASE-T

Duplex Automatic Document Feeder B1-C[1]

	AP-IV C3375	AP-IV C3373	AP-IV C2275
Type	Duplex Automatic Document Feeder		
Original Paper Size	**Max:** A3, 11 x 17", **Min:** A5[2]		
	38 - 128 gsm (**Duplex:** 50 - 128 gsm)		
Capacity[3]	110 sheets		
Feeding Speed (A4LEF)	**BW:** 35ppm, **Color:** 35ppm.		
Dimensions / Weight	W 560 x D 498 x H 125 mm, 8 kg		

[1] Available on AP-IV C3375/C3373/C2275 models only.
[2] Non-standard paper size single-sided mode: 125 x 85mm.
[3] 64 gsm paper.

[1] Standard for AP-IV C5575/C4475 models only.Optional for AP-IV C3375/C3373/C2275 models.
[2] 80 gsm paper.

High Capacity Feeder (HCF B1) (Optional)

Paper Size / Paper Weight	A4 LEF, 8.5 x 11" LEF, B5 LEF, 55 - 216 gsm
Capacity[1]	2,030 sheets
Dimensions / Weight	W 389 x D 610 x H 380 mm, 29 Kg
Space Requirement[2]	W 1,064 x D 699 mm

[1] 80 gsm paper.
[2] Main Unit + Side Tray, Manual Feeding Tray is fully extended.

Finisher-A1 (Optional)[1]

Type	Sort (Offset available) / Stack (Offset available)
Paper Size / Paper Weight	**Max:** A3, 11 x 17", **Min:** Postcards (100 x 148 mm), 55 - 220 g/m²
Stacker Capacity[2]	
Finisher Tray	**[Without Stapling]** A4: 500 Sheets, B4: 250 Sheets, **A3 or larger:** 200 Sheets, Mixed Size Stacking[3]: 250 Sheets, **[With Stapling]** 30 Sets
Staple	
Capacity	**A4:** 50 Sheets (90gsm or less), **B4 or larger:** 30 Sheets (90gsm or less)
Size	**Max:** A3, 11 x 17", **Min:** B5LEF
Position	Single stapling (Front/Angled)
Dimensions / Machine Weight	W 559 x D 448 x H 246 mm, 12 kg
Space Requirement	W 1,129 x D 699 mm

[1] The Optional Finisher-A1 cannot be installed on ApeosPort-IV C5575/C4475.
[2] 64gsm paper.
[3] When larger size sheets are stacked on top of smaller size sheets.
[4] Main Unit + Finisher A1, when Extension Tray is pulled out and Bypass Tray is fully extended.

Note: The Optional Finisher-A1 cannot be installed on ApeosPort-IV C5575/C4475,DocuCentre-IV C5575/C4475.

Duplex Output Unit

Applicable Paper Size	**Max:** SRA3(320 x 450mm), 12 x 18"(304.8 x 457.2mm),A3,**Min:** A5
Paper Weight	60-220gsm

Finisher-B1 (Optional)

Type	Sort (Offset available) / Stack (Offset available)
Paper Size[1] / Output Paper Weight	**Max:** A3, 11 x 17", **Min:** B5, 55 - 220 gsm
Stacker Capacity[2]	**[Without Stapling]** A4: 2,000 Sheets, B4: 1,000 Sheets, **Mixed Size Stacking**[3] 300 Sheets
	[With Stapling] A4: 100 Sets or 1,000 Sheets, **B4 or larger:** 75 Sets or 750 Sheets **Booklet / Fold**[4]: 50 Sets or 600 Sheets, **Fold**[4]: 500 Sheets
Staple	
Capacity	50 Sheets (90gsm or less)
Paper Size	**Max:** A3, 11 x 17", **Min:** B5LEF
Position	Single stapling (Front/Angled, Rear/straight), Dual stapling(Parallel to the edge)
Punch[5]	
Paper Size	A3, 11 x 17", B4, A4, A4 LEF, Letter 8.5 x 11", Letter 8.5 x 11"LEF, B5 LEF
Number of Holes	2/4-hole punch, 2/3- hole punch (US Specifications)
Paper Weight	55 - 200 gsm
Booklet Finishing[4]	
Capacity	**Saddle Staple:** 15 sheets, **Fold:** 5 sheets
Paper Size	**Max:** A3, 11 x 17", **Min:** A4, Letter (8.5 x 11")
Paper Weight	**Saddle Staple:** 64 - 80 gsm, **Fold:** 64 - 105 gsm
Dimensions / Weight	W620 x D552 x H987mm[6], 28kg, **Booklet Finisher attached:** W620 x D597 x H1,057mm[6], 37kg
Space Requirement[7]	W1,666 x D699mm, **Booklet Finisher attached:** W1,666 x D709mm

[1] Paper in the sizes larger than A3, 11 x 17" or smaller than B5 are delivered to the Center Tray.
[2] 64 gsm paper
[3] When larger size sheets are stacked on top of smaller size sheets
[4] The optional Finisher B1 Booklet unit is required for features of saddle stapling / bi-folding. If the output after saddle-stapling/bi-folding is not removed from the tray, the next job may not be output. The similar situation may happen to the smaller paper size as well.
[5] Optional 2/4 Hole Punch kit or optional Finisher B1 2/3 Hole Punch kit(US Specifications) is required.
[6] Inner connector within the body is excluded.
[7] Main Unit + Finisher B1, when Extension Tray is pulled out and Bypass Tray is fully extended.

Finisher-C1 (Optional)

Paper Tray Capacity[4]	**Standard:** 4 Tray Model: 500sheets x 4 Tray + Bypass Tray 90sheets Tandem Tray Model: 500sheets x 2Tray + 867sheets + 1,133sheets + Bypass Tray 90sheets **Optional:** High Capacity Feeder B1 (A4 1 Tray): 2,030sheets **Max:** 4,120sheets (500sheets x 4Tray + High Capacity Feeder B1+Bypass Tray) 5,120sheets (Standard+Tandem Tray Module+ High Capacity Feeder B1)				
Continuous Copy[5]	999 sheets				
Output Tray Capacity[4,6]	**Upper Center Tray:** 250 sheets (A4 LEF), **Lower Center Tray:** 250 sheets (A4 LEF)				
Power Supply[7]	220-240V AC ±10 % , 10/15A, 50/60Hz ±3 %				
Power Consumption	2.2kW or less(AC220V±10 %), 2.4kW or less(AC240V±10 %) **Sleep Mode:** 2.2W or less(AC220V) **Low Power Mode:** 60W or less **Ready mode:** 120W or less	2.2kW or less(AC220V±10 %), 2.4kW or less(AC240V±10 %) **Sleep Mode:** 2.2W or less(AC220V) **Low Power Mode:** 42W or less **Ready mode:** 60W or less			
Dimensions	W 640 x D 699 x H 1,041 mm (With Platen) W 640 x D 699 x H 1,128 mm (With DADF B1-P) W 640 x D 699 x H 1,143 mm (With DADF B1-PC)				
Machine weight[6]	C 5575/C4475/C3375/C3373/C2275: 124kg (With Platen) C3375/C3373/C2275: 129kg (With DADF B1-P) C 5575/C4475/C3375/C3373/C2275: 133kg (With DADF B1-PC)				
Space Requirement	**Platen:** W1,046 x D699mm[8] **DADF B1-C:** W1,064 x D699mm[9] **DADF B1-PC:** W1,108 x D699mm[9]				

[1] The hard disk capacity is not totally available for customers.
[2] Documents may not be printed correctly depending on usage conditions.
[3] The speeds may slow down due to image quality adjustment.
[4] 80gsm paper.
[5] Copy process may stop temporarily for stabilization of image quality.
[6] OCT function is off.
[7] Excluding Toner.
[8] When the Bypass Tray is fully extended.
[9] When the Bypass tray is fully extended, When stopper of DADF is turned on.

Print Function

Type	Built-in Type
Continuous Print Speed[1]	Same as the Fundamental Function / Copy Function
Print Resolution	**Output Resolution:** 1,200 x 2,400 dpi, 1,200 x 1,200 dpi **Data Process Resolution:** Standard: 600 x 600 dpi, **High Resolution:** 600 x 600 dpi, High Fine: 1,200 x 1,200 dpi
PDL	**Standard:** PCL6, PCL5, **Optional:** Adobe® PostScript® 3™
Protocol	**Ethernet (Standard):** TCP/IP (lpd, IPP, Port9100, SMB, WSD, Novell®NetWare®, ThinPrint®), Novell®NetWare® (IPX/SPX), NetBEUI (SMB), EtherTalk[2]

Print Function

Operating System[3]	**Standard:** Windows® 2000, Windows® XP, Windows Server®2003, Windows Vista®, Windows Server® 2008, Windows® 7, Windows® XP x64, Windows Server® 2003 x64, Windows Vista® x64, Windows Server® 2008 x64, Windows Server® 2008 R2 , Windows® 7 x64, Mac OS X 10.5~10.7 **Adobe® PostScript® 3™:** Windows® 2000, Windows® XP, Windows Server® 2003, Windows Vista®, Windows Server® 2008, Windows® 7, Windows® XP x64, Windows Server® 2003×64, Windows Vista®×64, Windows Server® 2008×64, Windows Server® 2008 R2, Windows® 7 x64, Mac OS X 9.2.2, Mac OS X 10.3.9 ~ 10.4.6/10.4.8 ~ 10.4.11/10.5~10.7
Fonts	**PCL6/5:** 82 European fonts, 35 Symbol set,Chinese Font(ShuSong), Korean Fonts (Myungio, Gothic, Round Gothic, Graphic, Kungso, Saemul) **Adobe® PostScript® 3™:** 136 European fonts TC/SC Additional Font ROM Kit: 4 Chinese Fonts (ShuSong, KaiTi, HeiTi, FangSong)
Emulation	HP-GL(HP7586B), HP-GL2/RTL(HP Design Jet 750C Plus), PCL5/6(HP Color Laser Jet 5500), ESC/P-K(LQ1900K II), KSSM, KS5843, KS5895
Connectivity	**Standard:** Ethernet 100BASE-TX / 10BASE-T, USB2.0[4] **Optional:** Ethernet 1000BASE-T

[1] The print speed may be lower according to the document type
[2] The Optional Adobe® PostScript® 3™ kit is required. Mac OS 9.2.2,Mac OS X 10.3.9/10.4.0/10.4.1/10.4.2/10.4.3/10.4.4/10.4.5/ 10.4.6/10.4.8/10.4.9/10.4.10/10.4.11/10.5 are supported.
[3] Please refer to the Fuji Xerox web site for the latest information of the compliant OS.
[4] USB 2.0 is supported by Windows® 2000 English, Windows® XP English, Windows Server® 2003 English, Windows Server® 2008 English, Windows Vista, Mac OS X 9.2.2, and Mac OS X 10.3.9/10.4.0/10.4.1/10.4.2/10.4.3/10.4.4/10.4.5/10.4.6/10.4.8/10.4.9/10.4.10/10.4.11/10.5/10.6/10.7.

Note: WSD stands for Web Services on Devices.

Scan Function

Type	Colour Scanner
Original Paper Size	Same as the Fundamental Function / Copy Function
Scanning Resolution	600 x 600 dpi, 400 x 400 dpi, 300 x 300 dpi, 200 x 200 dpi
Scanning Halftone	Color:10 bit input , 8 bit output for each for RGB color
Scanning Speed[1]	**BW:** 70 ipm, **Color:** 70 ipm (With DADF B1 - C) **BW:** 80 ipm, **Color:** 80 ipm (With DADF B1 - PC, Simplex) **BW:** 140 ipm, **Color:** 140 ipm (With DADF B1 - PC, Duplex) [Fuji Xerox Standard Document (A4 LEF), 200 dpi, Store to Folder.]
Connectivity	**Standard:** Ethernet 100BASE-TX / 10BASE-T **Optional:** Ethernet 1000 BASE-T
Store to Folder	**Protocol:** TCP/IP (WebDAV, HTTP) **File Format:** Monochrome binary: TIFF, DocuWorks[3], PDF[2], XPS[2], Grayscale: TIFF, JPEG[3], DocuWorks[2], PDF[2], XPS[4], Full Color: TIFF, JPEG, DocuWorks[3], PDF[2], XPS[2], High Compression DocuWorks[2], High Compression PDF[2,5], High Compression XPS[2,5] **Driver:** The TWAIN interface is supported. **Operating System[4]:** Windows® 2000, Windows® XP, Windows Server® 2003, Windows Vista®, Windows Server® 2008, Windows® 7, Windows® XP Proffesional×64, Windows Server® 2003 ×64, Windows Vista® ×64, Windows Server® 2008 ×64, Windows Server® 2008 R2, Windows® 7 x64
Scan to PC	**Protocol:** TCP / IP(SMB, FTP) **Operating System[4]:** Windows® 2000, Windows® XP, Windows Server® 2003, Windows Vista®, Windows Server® 2008, Windows® 7, Windows® XP Proffesional×64, Windows Server® 2003×64, Windows Vista®×64, Windows Server® 2008×64, Windows Server® 2008 R2 , Windows® 7 x64, Mac OS X 10.2.x/ 10.3.8/ 10.3.9/ 10.4.2/ 10.4.4/ 10.4.8/ 10.4.9/ 10.4.10/ 10.5/ 10.6, Novel NetWare® 5.11/ 5.12[5] **File Format:** Monochrome binary: TIFF (Compression method: MH, MMR), DocuWorks, PDF, XPS, Grayscale/Full Color: TIFF (Compression method: JPEG), JPEG, DocuWorks, PDF, XPS, High Compression DocuWorks[5], High Compression PDF[5], High Compression XPS[5], Microsoft® Word documents[6], Microsoft® Excel®documents[6]
Scan to e-mail	**Protocol:** TCP/IP (SMTP) **File Format:** Monochrome binary: TIFF (Compression method: MH, MMR), DocuWorks, PDF, XPS, Grayscale/Full Color: TIFF (Compression method: JPEG), JPEG, DocuWorks, PDF, XPS, High Compression DocuWorks[5], High Compression PDF[5], High Compression XPS[5], Microsoft® Word documents[6], Microsoft® Excel®documents[6]

[1] The scanning speeds vary depending on the document type.
[2] When scanned image is retrieved using CentreWare Internet Services.
[3] When scanned image is retrieved using Network Scanner Utilities 3.
[4] Please refer to the Fuji Xerox website for the latest information of the compliant OS.
[5] Only FTP is supported as protocol.
[6] To use this feature, an optional Advanced Scan Kit is required. The feature is designed to edit / reuse the text/image of the scanned / saved document.This feature is not to guarantee high-quality output result of text, diagrams and pictures on scanned document.

Note: XPS stands for XML Paper Specification.

Reproduction Prohibitions Please note that reproduction of the following is prohibited by law: Domestic and overseas bank notes and coins, government-issued securities, national bonds and local bond certificates. Unused postage stamps and post cards. Certificate stamps stipulated by law. The reproduction of works for copyright purposes (literary works, musical works, paintings, engravings, maps, cinematographic works, photographic works, etc.) is prohibited except when they are reproduced personally, at home or within limited range according to the above. This product is equipped with an anti-counterfeit feature. This feature is not intended to prevent illegal reproduction. Be extremely careful about the management of equipment used.

⚠ **For Your Safe Use**
Before using the product, read the Instruction Manual carefully for proper use.
Use the product with an appropriate adequate power source and voltage displayed. Be sure to establish a ground.
In the case of a failure or short circuit, an electric shock may result.

Notes

1) If a problem occurs with the recording medium (hard disk) in the device, received data, stored data, and data registered in the settings, etc. may be lost. Please note that Fuji Xerox will not be held responsible for any damages resulting due to lost data.
2) The minimum holding period for replacement precision parts is 7 years after production is ceased for the main unit of the device.
